## DETAILED ACTION

### *Allowable Subject Matter*

1. The following is an examiner's statement of reasons for allowance: there are no prior arts teaching or suggesting of a sensor for determining a concentration of carbon monoxide in a reducing gas stream as a function of a measured electrical property, the sensor comprising:

a substrate being non-conductive and having at least a first side and a second side;

a first electricity conductive electrode deposited on the first side of the substrate;

a second electricity conductive electrode deposited on the first side of the substrate so as to not contact with the first electrode; and

a sensing material in electrical contact with the first electrode and the second electrode, wherein the sensing material comprising a majority of cuprous chloride (CuCl), and the sensing material capable of selectively adsorbing carbon monoxide from the reducing gas stream, and the sensing material having an electrical property that varies in relation to the adsorbed carbon monoxide on the sensing material.

In another embodiment, the sensor that can selectively detect a concentration of carbon monoxide in a hydrogen-containing gas stream devoid of oxygen, the sensor comprising a sensing material having a lamellar structure, wherein a major of a metal halide, which

is cuprous chloride, that undergoes a reversible change in at least one electrical property only when carbon monoxide is present.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from examiner should be directed to primary examiner **Van Trieu** whose telephone number is (571) 272-2972. The examiner can normally be reached on Mon-Fri from 7:00 AM to 3:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. **Jeffery Hofsass** can be reached on (571) 272-2981.
